Festival of Lights

March 07, 2026

The Ravensburg Festival of Lights

A glowing festival of cultures

The Festival of Lights is the **largest community art project in southern Germany** - a festival by citizens for citizens. People of all backgrounds, with and without disabilities, big and small, celebrate diversity, creativity and community together.

In 2024, over 1200 participants from **schools, daycare centers, associations and initiatives built** and paraded hundreds of illuminated figures. Over 35,000 visitors lined the streets of Ravensburg.

The parade With its glowing figures made of willow rods, paper and LEDs, the parade is the highlight and centerpiece - but the festival offers even more: **music, art and hands-on activities** create space for encounters.

Following the motto „**FIRE**“, the Festival of Lights will light up Ravensburg's old town with a large and festive parade **on March 7, 2026**.

Workshops

Build figures - with your group!

Whether daycare center, school, club, institution or company: We offer workshops for all ages and groups. Our instructors will design the projects according to your needs - we will determine the type and size of the figures individually!

Important: If you book a workshop, you will also be in the parade on March 7, 2026!

Need funding? Get in touch with us - we have selected funding available. We will help if possible.
